About **APEX KIDNEY CARE**

Apex Kidney Care Pvt. Ltd. (AKC) provides comprehensive kidney care at affordable rates to patients suffering from kidney disease. Apex runs a chain of world class dialysis centres. Being launched owned and run by nephrologists, Apex and its family of patients get a unique advantage in terms of the quality of dialysis delivered and the ethics abided. Apex runs **230+ centers** providing dialysis services across **12 states** - Bihar, Delhi, Goa, Gujarat, Haryana, Madhya Pradesh, Maharashtra, Punjab, Rajasthan, Telangana, Uttar Pradesh, Uttarakhand. Apex also offers home hemodialysis and other nephrology related services. With more than **2000+ modern dialysis machines** carrying out more than **96 Thousand+** dialysis treatments per month, Apex has emerged as one of the largest dialysis service provider and a premier destination for quality dialysis care in India.

ABOUT APEX SCHOOL OF DIALYSIS TECHNOLOGY

Apex School of Dialysis Technology (ASDT) is the academic initiative of Apex Kidney Care which was started in 2010. It is committed to training students become dialysis professional to provide Dialysis for End Stage Kidney Failure (ESKF) patients. The vision of the ASDT is to create vocation and skill-based program for the youth and dialysis professional by skilling them in dialysis sector and that would promote better patient care, employability, better livelihood and a brighter future.

ASDT faculty comprises of eminent professionals from the field of nephrology, vascular surgery, dialysis technology, water treatment technology, biomedical engineering, management, soft skill training, dietetics and nutrition. It has an excellent air-conditioned classroom with high tech AV equipment. Students enrolled with ASDT have an access to a large number of dialysis patients for hands on training, giving them an ample opportunity to learn about the functioning of the machine, day to day maintenance and patient care. So far ASDT has trained more than 1500 students.

AKC-ASDT Received award :

- Achiever of the Year Award - 2018
- Top Performing Hub Training Partner Award - 2017

COLLABORATIONS

AKC has collaborated with University and the Government of Maharashtra Skill, Employment, Entrepreneurship and Innovation Department, under the aegis of the "Maharashtra State Board of Skill, Vocational Education and Training (MSBSVET)", to deliver industry-oriented skill development and healthcare training programs. Through these partnerships, AKC offers comprehensive courses including Degree program, Advance Diploma, Diploma, Certificate, PG Diploma in Dialysis Technology and

Basic Life Support (BLS) training. These programs are designed to provide students with strong theoretical knowledge, practical clinical exposure, and enhancing employability and career growth in the renal dialysis sector. AKC-ASDT as a Knowledge Provider for Skill Training (KPST) an industry organization that provides on-the-job training to students, enabling them to gain practical experience in real dialysis work environments

About Courses

- Bachelor of Science in Dialysis Technology
- Advance Diploma in Dialysis Technology
- Diploma Course in Dialysis Technology
- Certificate Course in Dialysis Technician
- PG Diploma in Dialysis Technology
- Certificate Course in Basic Cardiopulmonary Life Support (BCLS) / Basic Life Support (BLS) Provider Course

COURSE HIGHLIGHTS

- Hands-on/ Practical /OJT under industry expert
- Modern equipment's and latest dialysis machines
- Industry Oriented Curriculum
- 100% placement assistance
- Earn while you Learn
- Exposure to latest modalities in dialysis treatment
- Curriculum includes soft skill training
- Stipend from OJT*
- Scholarship for deserving candidates*

EMPLOYMENT PROSPECTIVE

After successful completion of the course, students can explore opportunities in:

- Standalone Dialysis Units / Hospitals as Dialysis Technologists
- Multi-Specialty Hospitals, Kidney Care Centers and Renal Care Units
- Nephrology Clinics assisting nephrologists and healthcare teams
- Renal Medical Equipment & Healthcare Companies as Product Specialists / Application Specialists
- Dialysis Equipment Companies in technical support, service, and sales
- Home Dialysis Support Services and Patient Care

BACHELOR OF SCIENCE IN DIALYSIS TECHNOLOGY / BACHELOR OF DIALYSIS THERAPY TECHNOLOGY

The course consists a combination of Practical, Theory and Generic subjects. The four year program includes one year mandatory internship. The program is a work integrated training which include on-the-job training.

Course Duration:

- 4 years (3 years plus one year mandatory Internship)

Eligibility:

- HSC Science or equivalent

Fees Structure:

- Training Fees Rs. 62,000/- per annum (It Includes ID card, course material, OJT logbook)
- Internship Fees (Fourth Year) : 40,000/- annum
- Examination Fees: Rs. 2000/- per semester and Rs. 4,000/- per annum
- Caution Deposit (Refundable): Rs.5000/- (applicable in first year)
- Other Charges (ID Card, Convocation & Misc.: Rs.2500/- (Applicable in last semester)

ADVANCE DIPLOMA IN DIALYSIS TECHNOLOGY

The Advance Diploma in Dialysis Technology is a specialized paramedical/allied health science course that trains students to operate dialysis machines and assist in the treatment of patients with kidney disorders. It provides practical and clinical knowledge in dialysis procedures, patient care, infection control, and emergency handling in hospitals and dialysis centers.

Course Duration:

- 1 years

Eligibility:

- 12 Pass with Diploma in Dialysis Technology.

- Fees Structure:**
- Training Fees Rs. 35,000/- per annum (It includes an ID card, access to learning resources, an OJT logbook, and examination fees)

DIPLOMA IN DIALYSIS TECHNOLOGY

The Diploma in Dialysis Technology programme provides students with theoretical knowledge and hands-on practical training in a dialysis unit. The course prepares students to assist in dialysis procedures and patient care.

Students learn about dialysis procedures, operation of dialysis machines and equipment, patient monitoring during treatment, infection control, safety protocols, and basic nephrology support.

Course Duration:

- 2 years

Eligibility:

- 12 Pass and Equivalent. (12 Pass Candidate with relevant experience for 1 years with RPL Test (Recognize Prior Learning Test)).

Fees Structure:

- Training Fees Rs. 25,000/-per annum (It includes an ID card, access to learning resources, an OJT logbook, and examination fees)

CERTIFICATE COURSE IN DIALYSIS TECHNICIAN

The Certificate Course in Dialysis Technician prepares students with essential skills to assist in dialysis procedures and manage dialysis equipment effectively. The course focuses on patient care, safety protocols, and hands-on clinical training for careers in hospitals and dialysis units.

Course Duration:

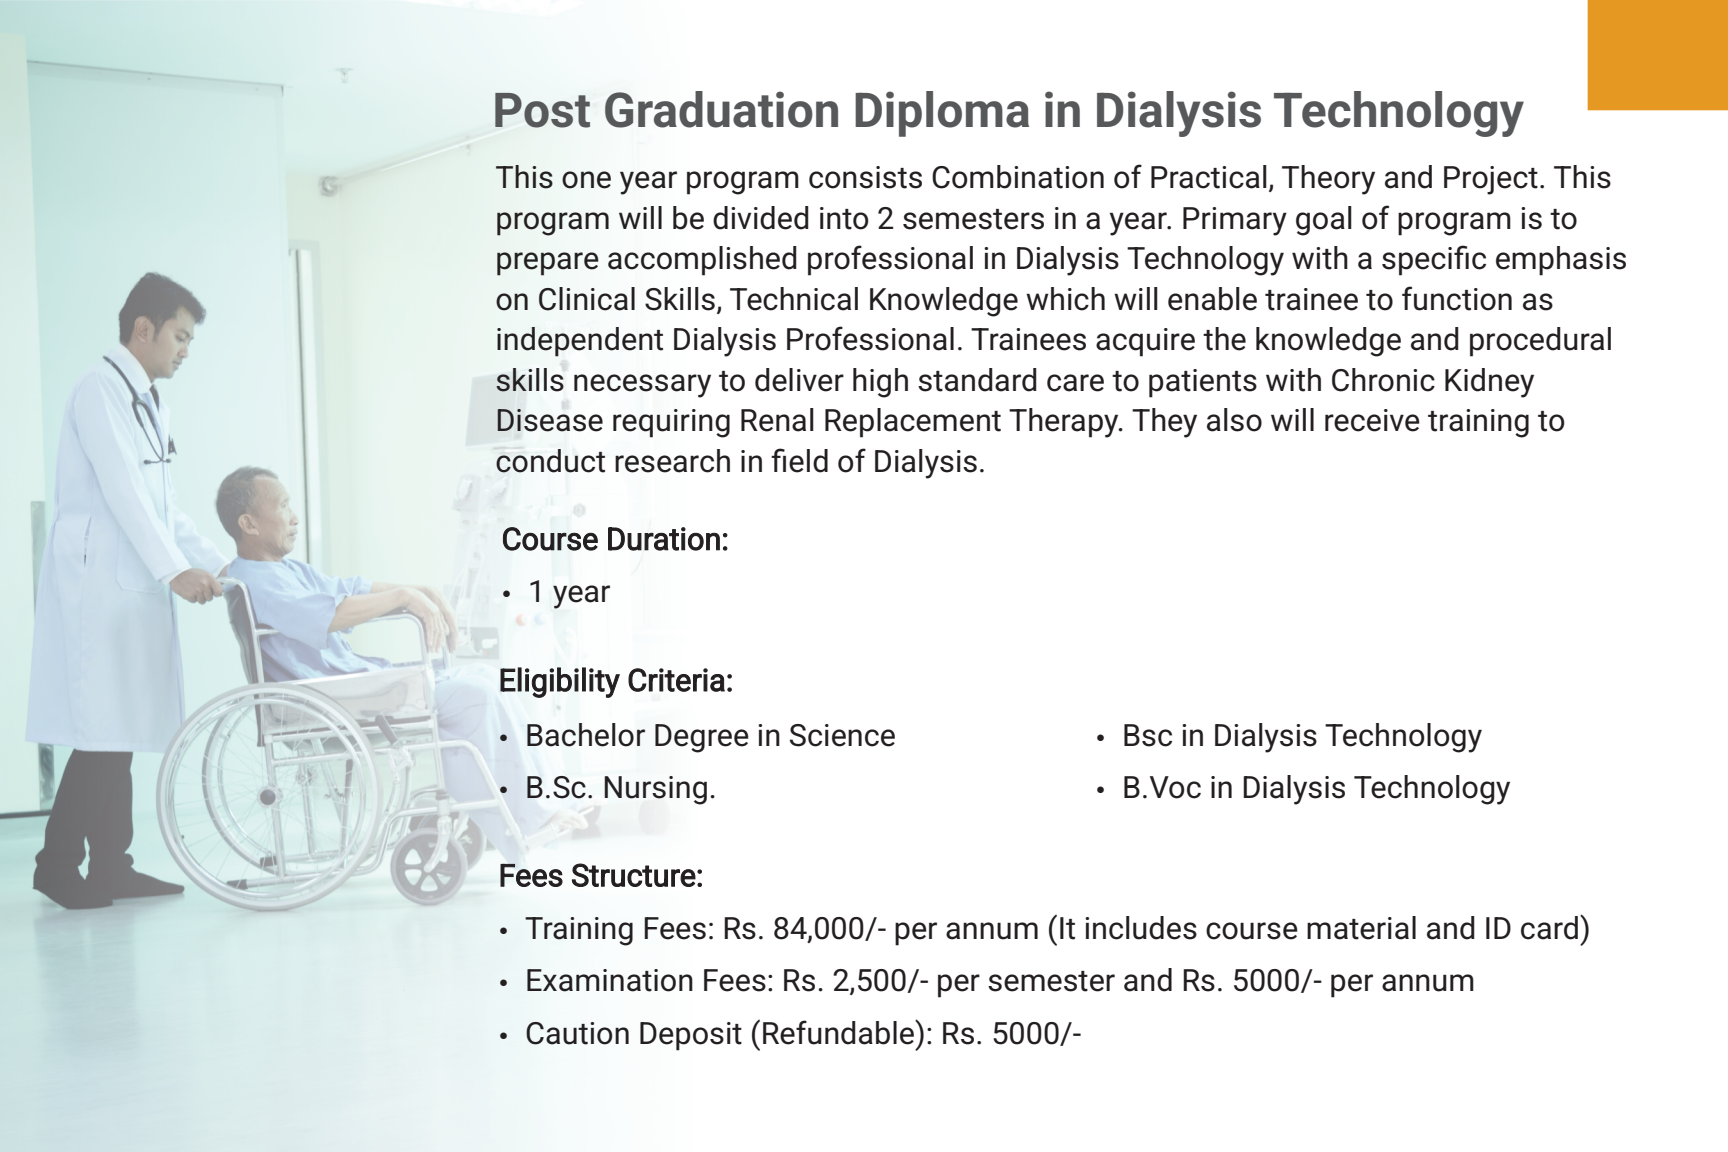

- 3-6 months

Eligibility:

- SSC or HSC pass with several years' experience in Dialysis.

Fees Structure:

- Training Fees Rs. 15,000/- (It includes an access to learning resources and examination fees)

A doctor in a white coat is assisting an elderly patient in a wheelchair. The patient is wearing blue hospital scrubs. They are in a bright, modern hospital corridor with large windows in the background. The doctor is standing and holding the back of the wheelchair, while the patient is seated and looking forward.

Post Graduation Diploma in Dialysis Technology

This one year program consists Combination of Practical, Theory and Project. This program will be divided into 2 semesters in a year. Primary goal of program is to prepare accomplished professional in Dialysis Technology with a specific emphasis on Clinical Skills, Technical Knowledge which will enable trainee to function as independent Dialysis Professional. Trainees acquire the knowledge and procedural skills necessary to deliver high standard care to patients with Chronic Kidney Disease requiring Renal Replacement Therapy. They also will receive training to conduct research in field of Dialysis.

Course Duration:

- 1 year

Eligibility Criteria:

- Bachelor Degree in Science
- B.Sc. Nursing.
- Bsc in Dialysis Technology
- B.Voc in Dialysis Technology

Fees Structure:

- Training Fees: Rs. 84,000/- per annum (It includes course material and ID card)
- Examination Fees: Rs. 2,500/- per semester and Rs. 5000/- per annum
- Caution Deposit (Refundable): Rs. 5000/-

CERTIFICATE COURSE IN BASIC CARDIOPULMONARY LIFE SUPPORT (BCLS) / BASIC LIFE SUPPORT (BLS) PROVIDER (COURSE FOR HEALTHCARE PROFESSIONALS)

Learn essential life-saving skills to respond effectively during cardiac and respiratory emergencies.

This course provides skill practical training and essential knowledge required to perform high-quality CPR and emergency life support. The course includes comprehensive study material, hands-on practical training, a training certificate, and an E-Card (soft copy) provided upon successful completion of the course.

Learn life-saving skills with hands-on training in CPR and emergency life support. The course includes comprehensive study material, practical sessions, a training certificate, and an E-Card on completion.

Training Highlights:

- Chain of Survival,
- High Quality Chest Compression
- Adult, Child and Infant CPR
- Basics Airway Management
- Automated External Defibrillator (AED)
- Special Considerations in Life Support

Who Should Attend: • Doctors • Nurses • Paramedics • Dialysis Technologists
• Healthcare Students • Allied Healthcare Professionals

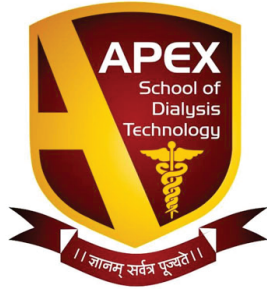

Learn the skills that can HELP SAVE A LIFE.
